

JOINT ECUMENICAL DECLARATION FOR RELIGIOUS FREEDOM IN BRAZIL

The Christians members of the We are One Mission congratulate themselves fraternally and affirm that the fundamental right to religious freedom is actualized, among many ways, in the witness of the religious who live and work together for the common good and social peace. Therefore, the consideration of the religious reality as a human-social phenomenon is a striking feature of our society, and its manifestation must be ensured not only in private, but also in the public spaces of this immense country of continental dimensions.

The witness of Christ highlights the meaning and relevance of the Christian message for the citizens of Rio de Janeiro insofar as it is embodied by Catholic and Evangelical men and women who seek to collaborate with a society based on the promotion of human dignity and the imperative of the common good, universal values present in the Gospel.

In this unique opportunity, we assure our common commitment to promote, through actions, the culture of encounter, respect and dialogue, in order to make the message of Jesus that welcomes and include all, clear.

The We Are One Mission, aware of the damage that intolerance and polarization cause to our people, who have already suffered so much because of the hardships they have been going through for decades, and certain that the unity of Christians is the way to comfort and to the renewal of hope in our society, turns her eyes in hope to our beloved Christ with the firm conviction that new days will dawn on all of us.

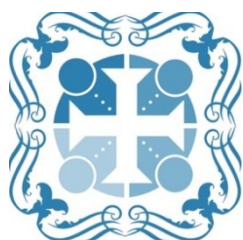

Rio de Janeiro, September 15, 2021.
